

Phillips, Mark - CV

Mark A. Phillips

Department of Integrative Biology
3029 Cordley Hall
Oregon State University
Corvallis, OR 7331

Phone: 727-637-6797

Email: philmark@oregonstate.edu

Website: www.phillipslabosu.com

Education

2018	Ph.D. Biological Sciences, University of California, Irvine
2016	M.S. Biological Sciences, University of California, Irvine
2011	B.S. Biological Sciences, University of Florida, Gainesville

Appointment History

2021-present	Assistant Professor, Department of Integrative Biology, Oregon State University
2018-2021	Postdoctoral Researcher, Department of Integrative Biology, Laboratory of Dr. Molly Burke, Oregon State University
2012-2018	Graduate Researcher, Department of Ecology and Evolutionary Biology, Laboratory of Dr. Michael Rose, University of California, Irvine

Awards & Funding

2019 - 2021	NSF Postdoctoral Research Fellowship in Biology	\$155,250
2014 - 2018	Department of Education GAANN Fellowship	\$81,000
2016	NSF Doctoral Dissertation Improvement Grant	\$20,085
2015	Carl Storm Underrepresented Minority Fellowship	\$600
2012	UC Irvine's Competitive Edge Program	\$5000

Publications

In review or revisions

Phillips M.A., Briar R.K., Scaffo M., Zhou S., Burke M.K. Strength of selection potentiates distinct adaptive responses in an evolution experiment with outcrossing yeast. **In Review** (bioRxiv: <https://doi.org/10.1101/2022.05.19.492575>)

Kezos J.N., Barter T.T., Cabral L.G., **Phillips M.A.**, Azatian G., Buenprostro J.E., Bhangoo P.S., Khong A., Reyes G.T., Rahman A., Humphrey L.A., Bradley T.J., Mueller L.D., Rose M.R. Building bridges from genome to physiology using machine learning and *Drosophila* experimental evolution. **In Review** (bioRxiv: <https://doi.org/10.1101/2022.07.18.500543>).

Contributed Presentations (first author only)

2022 – Evolution 2022

2022 – University of Florida Department of Biology Seminar Series (invited talk)

2022 – North Carolina A&T State University Department of Biology Seminar Series (invited talk)

2021 – WSU Vancouver Fall Seminar Series (invited talk)

2021 – OSU Center for Quantitative Life Sciences Conference (invited talk)

2021 – CN Yang Scholars Programme at Nanyang Technological University (invited talk)

2019 – Evolution 2019 (invited talk)

2019 – OSU CGRB Conference (poster)

2018 – Society for Molecular Biology and Evolution (poster)

2017 – Directed Evolution and Synthetic Biology Group at UC Irvine (invited talk)

2015 – Gordon Research Conference on Ecological and Evolutionary Genomics (poster)

2015 – Plant & Animal Genome XXIII Conference (talk)

2014 – 55th Annual Drosophila Research Conference (poster)

Mentoring and Outreach

Member of OSU's DEJI Action Plan Committee (2020 – 2021)

During my time on this committee, we were tasked with authoring a Diversity Action Plan (<https://science.oregonstate.edu/diversity-plan>) for Oregon State University's College of Science. This plan outlines actions that will be taken over four years to promote diversity, equity, and inclusion within the college.

Policy Integration Task Force in the Department of Integrative Biology at OSU (2020 – 2021)

During my time on this committee, we were tasked with reviewing past faculty hiring policy within the Department of Integrative Biology and recommending new policies to make future faculty searches more equitable.

Mentoring Undergraduate Researchers, Dr. Molly Burke's Lab, Oregon State University (2019-2021)

During my post doc with Dr. Burke, I mentored and trained three undergraduate researchers who made significant contributions work in the lab on the genetic basis of ethanol resistance in yeast. All three students were from underrepresented groups within Ecology and Evolutionary Biology.

Mentoring Undergraduate Researchers, Dr. Michael Rose's Lab, UC Irvine (2012-2018)

During my time as a graduate student in the Rose Lab, I mentored and trained dozens of undergraduate research assistants. I also guided five students who conducted their own experiments for publication in UC Irvine's undergraduate research journal.

Resident Scientist at Santa Ana High School (2013 – 2018)

This is a program I started with six other graduate students in 2013. Over the course of a month every year, we went into biology classrooms at Santa Ana High School to guide students through experiments aimed at reinforcing core course content. I personally led students through bacterial transformation experiments and introduced them to the field of computation biology. We also devoted time to answering student questions about navigating higher education (e.g. application process, finding scholarships, pursuing advanced degrees, etc.) and careers in STEM.

Irvine Unified School District Science Fair Judge (2014 – 2015)

I served as a science fair judge for two years. In addition to helping select winners, I spent a great deal of time discussing and providing students with feedback on their projects.
