

Phillips, Mark - CV

## **Mark A. Phillips**

Department of Integrative Biology  
2028 Coast Range Building  
Oregon State University  
Corvallis, OR 7331

Phone: 727-637-6797

Email: [philmark@oregonstate.edu](mailto:philmark@oregonstate.edu)

Website: [www.phillipslabosu.com](http://www.phillipslabosu.com)

## **Education**

2018	Ph.D. Biological Sciences, University of California, Irvine
2011	B.S. Biological Sciences, University of Florida, Gainesville

## **Appointment History**

2021-present	Assistant Professor, Department of Integrative Biology, Oregon State University
2018-2021	Postdoctoral Researcher, Department of Integrative Biology, Laboratory of Dr. Molly Burke, Oregon State University
2012-2018	Graduate Researcher, Department of Ecology and Evolutionary Biology, Laboratory of Dr. Michael Rose, University of California, Irvine

## **Awards & Funding**

2023	University of Washington Nathan Shock Center Pilot Project Award
2019 - 2021	NSF Postdoctoral Research Fellowship in Biology
2014 - 2018	Department of Education GAANN Fellowship
2016	NSF Doctoral Dissertation Improvement Grant

## Publications

### In review or revision

**Phillips M.A.**, Briar R.K., Scaffo M., Zhou S., Burke M.K. Strength of selection potentiates distinct adaptive responses in an evolution experiment with outcrossing yeast. **In Review** (bioRxiv: <https://doi.org/10.1101/2022.05.19.492575>)

Barter T.T., Greenspan Z.S., **Phillips M.A.**, Ranz J.M., Rose M.R., Mueller L.D. Genome-wide architecture of adaptation in experimentally evolved *Drosophila*. **In Review** (bioRxiv: [doi.org/10.1101/2020.10.30.361857](https://doi.org/10.1101/2020.10.30.361857))

### First and co-first authored publications (\* indicates equal contribution)

## Contributed Presentations (first author only)

- 2022 – Evolution 2022 (talk)
- 2022 – University of Florida Department of Biology Seminar Series (invited talk)
- 2022 – North Carolina A&T State University Department of Biology Seminar Series (invited talk)
- 2021 – WSU Vancouver Fall Seminar Series (invited talk)
- 2021 – OSU Center for Quantitative Life Sciences Conference (invited talk)
- 2021 – CN Yang Scholars Programme at Nanyang Technological University (invited talk)
- 2019 – Evolution 2019 (invited talk)
- 2019 – OSU CGRB Conference (poster)
- 2018 – Society for Molecular Biology and Evolution (poster)
- 2017 – Directed Evolution and Synthetic Biology Group at UC Irvine (invited talk)
- 2015 – Gordon Research Conference on Ecological and Evolutionary Genomics (poster)
- 2015 – Plant & Animal Genome XXIII Conference (talk)
- 2014 – 55th Annual Drosophila Research Conference (poster)

## Mentoring and Outreach

### Member of OSU's DEJI Action Plan Committee (2020 – 2021)

During my time on this committee, we were tasked with authoring a Diversity Action Plan (<https://science.oregonstate.edu/diversity-plan>) for Oregon State University's College of Science. This

## Phillips, Mark - CV

plan outlines actions that will be taken over four years to promote diversity, equity, and inclusion within the college.

### Policy Investigation Task Force in the Department of Integrative Biology at OSU (2020 – 2021)

During my time on this committee, we were tasked with reviewing past faculty hiring policy within the Department of Integrative Biology and recommending new policies to make future faculty searches more equitable.

### Mentoring Undergraduate Researchers, Dr. Molly Burke's Lab, Oregon State University (2019-2021)

During my post doc with Dr. Burke, I mentored and trained three undergraduate researchers who made significant contributions work in the lab on the genetic basis of ethanol resistance in yeast. All three students were from underrepresented groups within Ecology and Evolutionary Biology.

### Mentoring Undergraduate Researchers, Dr. Michael Rose's Lab, UC Irvine (2012-2018)

During my time as a graduate student in the Rose Lab, I mentored and trained dozens of undergraduate research assistants. I also guided five students who conducted their own experiments for publication in UC Irvine's undergraduate research journal.

### Resident Scientist at Santa Ana High School (2013 – 2018)

This is a program I started with six other graduate students in 2013. Over the course of a month every year, we went into biology classrooms at Santa Ana High School to guide students through experiments aimed at reinforcing core course content. I personally led students through bacterial transformation experiments and introduced them to the field of computation biology. We also devoted time to answering student questions about navigating higher education (e.g. application process, finding scholarships, pursuing advanced degrees, etc.) and careers in STEM.

### Irvine Unified School District Science Fair Judge (2014 – 2015)

I served as a science fair judge for two years. In addition to helping select winners, I spent a great deal of time discussing and providing students with feedback on their projects.

## **Professional Development**

2019

Cold Spring Harbor Yeast Genetics and Genomics Course
